EBSCO is a hub for different databases that will give you access to full text articles, journals, e-books, and more. The different databases within EBSCO allow you to search within different topics or types of sources including academic journal articles, Cochrane reviews, psychology, and much more.

To access EBSCO:
(Baptist Health computers)
EmployeeNet> My Resources> M.C. Gilbreath Library> Research Databases> EBSCO
(non-Baptist Health computers)
http://search.ebscohost.com > EBSCO Host
  Username: S2578206
  Password: library
* Username “S” must be in uppercase letters. Password is in all lowercase letters.
Note: This username and password is for use by Baptist Health personnel only.

Beginning Your Search
For a general search, begin by clicking EBSCO Discovery Service
  Type in your topic or keywords into the search box

Search by keyword, title, or author

Click to begin search with limiters

Note: You will have the option of limiting your results further as you perform your search
